Experience

User Experience Design Intern

State Farm

Jan 2021 - Present

- Analysed and tested existing contact center system with respect to usability heuristics.
- Produced graphics, presentations, and promotional materials.

Technology Intern

State Farm

May 2020 - Aug 2020

- Storyboarded, designed and implemented a virtual reality experience based off an existing State Farm commercial.
- Created and animated 3D assets and designed and programmed a virtual reality environment and interactions.

User Experience Designer

Automn

Feb 2020 - May 2020

- Conducted research and analysis for a student-focused productivity app through 12+ interviews and 20+ surveys with potential users.
- Simplified and redesigned information architecture, created wireframes, and designed a functional prototype.

Teaching Assistant

Edhesive

Aug 2019 - March 2020

- Helped 200+ high school students and teachers learn object-oriented programming and computer science.
- Identified common pain points and designed improvements to programming assignments and curriculum.

Education

B.S. Computer Science + Chemistry

University of Illinois at Urbana Champaign

Aug 2018 - May 2022
